

PLANNING TO STAY IN YOUR HOME?

We specialize in making that happen.

From bathrooms and kitchens to whole house improvements, we help homeowners remain at home with our beautiful adaptive design solutions.

WE UNDERSTAND WANTING TO REMAIN AT HOME.

Whether the need is immediate or it's time to start planning, we offer myriad solutions that make remaining at home not only realistic, but safe and beautiful.

Our national designation as a Certified Aging in Place Specialist (CAPS) ensures that we've received advanced training on home modification solutions.

From Baby Boomers to active seniors, we construct spaces that allow people to live happily ever after in their home.

Adaptive Design Solutions

We specialize in adaptive design to create beautiful and functional spaces within the home that fit one's aesthetic and never feel institutional. From single-room enhancements to complete house modifications, every project is carefully planned based on a client's level of ability and stage in life. We also consider future needs so that our modifications continue to allow for aging in place.

Our clients include:

- People who intend to stay in their homes and want to prepare for the future
- Those who need to make modifications to accommodate progressive health conditions, such as Parkinson's disease and Multiple Sclerosis
- Homeowners who require immediate assistance due to traumatic injuries and sudden impaired mobility
- Adult children who understand their parents' desire to remain at home, and work with us to make that happen

Our products and services include:

- Grab bars, stair lifts, and other mobility-enhancing equipment
- Wider doorways and lever-style handles
- Accessible cabinetry, appliances, showers, sinks and toilets
- Kitchen and bath reconfigurations including structural changes
- Single floor living and contemporary in-law suites
- Permanent and temporary ramps
- Improved lighting including automatic night lights

Chris Spear founded Cobblestone Construction in 2001. Over the years, Chris has worked with hundreds of homeowners, as well as designers, architects, and builders. He has extensive experience in the areas of adaptive design and remodeling, and is a Certified Aging in Place Specialist (CAPS). Age In Place Ohio is a specialty division of Cobblestone Construction LLC.

Chris and his team enjoy a well-deserved reputation for business excellence, and the majority of their projects are referrals from satisfied customers.
